EDUCATION

UNIVERSITY OF OKARA

BS IN SOFTWARE ENGINEERING

Aug 2020 - Aug 2024 | Okara, PK

COURSEWORK

UNDERGRADUATE

- Object Oriented Programming
- Operating Systems
- Databases
- Networking
- Software Design & Architecture
- Game Development
- Information Security

SKILLS

PROGRAMMING

ANDROID:

Android SDK • Kotlin • Java
Jetpack Compose • XML • Material 3
Room Database • Clean Architecture
MVVM • Dagger Hilt • Koin
Retrofit • Firebase

FAMILIAR:

Python • AOSP • C++ • C

OPERATING SYSTEMS

Linux • Windows • MacOS

INTERESTS

- **MOBILE APP INNOVATION:**
Exploring new features and design patterns for user-friendly mobile apps.
- **HEALTH AND FITNESS:**
Dedication to a healthy lifestyle through exercise and outdoor activities.
- **ONLINE EXPLORATION:**
Curious about diverse content, from tech forums to educational videos, for inspiration.

LANGUAGES

PROFICIENCY

- **English:** CONVERSATIONAL
- **Urdu:** NATIVE

EXPERIENCE

ONESCREEN SOLUTIONS | ANDROID DEVELOPER

NOV 2023 - Present | Islamabad

- Led development of AOSP-based **launcher** for two devices with unique UI designs, building upon **Launcher3**.
- Achieved **EDLA** certification by ensuring the launcher met all required standards and compliance checks.
- Developed and maintained custom Android applications tailored to specific client requirements and bid-based projects.
- Managed the complete development process, delivering all projects independently from concept to deployment.

SOLUTION OF TECHNOLOGIES | ANDROID DEVELOPER

SEP 2023 - OCT 2023 | Rawalpindi, Islamabad

- Led the development of a modern, user-friendly **keyboard** app using **Jetpack Compose**.
- Implemented key features, including multiple layouts, gestures, and custom themes.
- Ensured cross-device compatibility, testing on 4 Android models for optimal performance.
- Collaborated with designers to enhance UI/UX, gaining teamwork experience.

PROJECTS / OPEN-SOURCE

LAUNCHER PROJECT 📱 | JAVA/KOTLIN/XML/JETPACK COMPOSE

- Developed a custom launcher for AOSP using **Kotlin**, **Java**, and **XML**, supporting multiple UI designs and device compatibility.
- Integrated **API** features for real-time weather updates and screen sharing, enhancing user functionality.
- Created responsive UIs using **Jetpack Compose**, optimizing performance and enhancing overall usability.
- Ensured compliance with **EDLA** certification requirements, successfully passing the certification process for both devices.

KEYBOARD APP 📱 | KOTLIN/XML

- Developed a keyboard app using **Kotlin** and **Jetpack Compose**, featuring multilingual support, emojis, and symbol layouts.
- Implemented **AdMob** ads for monetization, integrating ad formats that maintain user experience.
- Created a responsive UI with **Jetpack Compose**, optimizing performance and improving overall usability.

MUSIC PLAYER APP 📱 | KOTLIN/XML

- Developed and published an offline music player app on the Play Store using **Kotlin** and **XML**, focusing on seamless playback controls and optimized playlist management.
- Incorporated the **Glide** library for efficient image loading, enhancing overall app performance and user experience.
- Designed an intuitive **user interface** to improve navigation, receiving positive user feedback on usability.
